As a seasoned front-end developer (over 100,000 lines of good code), I have a strong track record of launching successful websites and apps on both the Play store and App Store. I'm passionate about emerging technologies like Flutter, React, NodeJs, WebGL and ThreeJs, and I like to combine all technologies to create amazing products.

RELEVANT FRONT-END EXPERIENCE

1. Front-End Developer
Toya Club | London, UK   Aug, 2023 - Present
- Wrote over 50,000 lines of flutter code here alone.
- Designed and developed a Private Members Club app and admin panel from scratch to completion within 5 weeks, as a solo project.
- Figma - Sketching, Theming, Wireframes, prototypes, mockups.
- Development - Developed the entire app using Flutter, Firebase and Revenuecat(6 membership plans)
- Frontend - Flutter, clean architecture, MVVM, provider state management, Dio package(for 10 - 12 API calls), login screen with a video background.
- Backend - Firebase Cloud Firestorm, Firebase OTP Authentication, Firebase Storage(for photo files), in app purchases - Membership packages managed via Revenuecat. Connected all 6 membership plans with play store products as well as app store products.
- Play store link: https://play.google.com/store/apps/details?id=com.toya.som
- App Store link: https://apps.apple.com/in/app/toya/id6466505906
- Use (+44 1234567891) with OTP(123456) to access all features of the app.

2. Front-end Developer
Labgex Innovations | Saudi Arabia   May, 2023 - Jul, 2023
- Wrote over 40,000 lines of flutter code here.
- Developed 2 apps - a Taxi booking app and a Masters app in a team of two(me as flutter developer and the other php)
- Flutter, clean architecture, MVVM, provider state management, Firebase OTP authentication, dio package used for API calls (8 - 12 for 2 apps), google places API integration.
- The Sterling Tours and Travels app led Labgex to be in partnership with **Coca-cola** and **Pepsi**.
- Play Store link to Sterling Tours and Travels: https://play.google.com/store/apps/details?id=com.sterling.taxi
- App Store link to Sterling Tours and Travels: https://apps.apple.com/ae/app/sterling-tours-and-travels-inc/id6456341851
- Use (+91 1234567891) with OTP (123456) to access the customer profile and (+91 1234567890) with OTP (123456) to access the pilot profile.

3. Front-end Developer Intern
Schaffen Softwares | Pune, India   Feb, 2023 - May, 2023
- Wrote over 5,000 lines of flutter code
- Made the swiping process in the dating section of the app faster by 0.5 seconds.
- Worked in a team of four Flutter developers and a backend developer to make a dating app called Shwipt.
- Flutter, clean architecture, MVVM, GetX, provider state management, Firebase OTP authentication, Bio package used for API calls.

ADDITIONAL WORK EXPERIENCE
